ROBINSON HURON TREATY SETTLEMENT AGREEMENT FOR PAST COMPENSATION FUNDS TRANSFERRED BEFORE THE END OF THE 60 DAY PERIOD

On March 19-20, 2024, Gimaa Craig Nootchtai attended a special Chiefs and Trustees meeting of the Robinson Huron Treaties Litigation Fund. During this meeting in Little Current, all the 21 First Nations Chiefs and Trustees received a significant update in the litigation process.

What happened?

Chiefs and Trustees were informed that on Friday, March 15th, Ontario deposited $5 billion dollars with the Robinson Huron Treaty Litigation Fund. They were also informed that Canada would deposit $5 billion dollars with the Robinson Huron Treaty Litigation Fund on Monday, March 25, 2024. Further to this announcement at the meeting, on Monday, March 25, 2024, Gimaa Craig Nootchtai received confirmation from the Robinson Huron Treaty Litigation Fund that Canada had indeed deposited the $5 billion dollars with the Robinson Huron Treaty Litigation Fund.

The deposit of the settlement funds into the Robinson Huron Treaty Litigation Fund accounts occurred much earlier than anticipated. The transfer of funds from both Ontario and Canada to the Robinson Huron Treaty Litigation Fund account completes their obligations under the Settlement Agreement for Past Compensation.

Were there other announcements made?

Yes. The Robinson Huron Treaty Litigation Fund proposed amending the Compensation Disbursement Agreement to facilitate a quicker transfer of funds from the Robinson Huron Treaty Litigation Fund to each of the 21 Nations. Proposed changes include:

- Under Priority Payment 2, a reduction of the 10% set-aside to be used for collective purposes down to 5%.
- Under Priority Payment 3, the addition of the 5% taken from the collective set-aside to be added to the 50% that will be divided by the Indigenous Services Canada registered population figures, and by the registered annuitants of each of the 21 Nations, bringing the total to 55%.
- Under Priority Payment 3, the elimination of the verification process for registered annuitants thereby resulting in full use of the Indigenous Services Canada population list to determine the population payout to each of the 21 Nations.

If approved, the proposed changes would result in more funds being distributed to each of the 21 Nations sooner than the originally planned 2-3 years. All 21 Nations must agree to these changes and their Councils must provide a Band Council Resolution indicating their support and acceptance of the proposed changes.

ATIKAMEKSHENG ANISHNAWBEK

What does this mean moving forward?

The Robinson Huron Treaty Litigation Fund will continue to prepare for the transfer of Priority Payment 1 to each First Nation, which includes the first 39% of the collective settlement and the reimbursement of legal fees paid by each Nation. The Robinson Huron Treaty Litigation Fund will continue to support each First Nation by providing additional funds to them as they prepare to receive their funds and continue community engagement activities.

Atikameksheng Anishnawbek is currently establishing a secure account to receive the funds and is also creating a separate account with our Trust Administrator to hold and manage the funds until we complete our referendum on May 24, 2024. The per capita distributions will begin once the referendum is complete. To prepare for this distribution, we must ensure that our membership list is up to date, and that our Debendaagziwaad have bank accounts to receive their payment. The finance and administration departments are working on the logistical plan for collecting the banking information from Debendaagziwaad and will announce that plan once it is complete.

Right now, the settlement money that is currently being held by the Robinson Huron Treaty Litigation Fund is accruing interest at a rate of approximately $1.3 million dollars per day. The total interest earned will be divided equally amongst all 21 First Nations.

What comes next?

Atikameksheng Anishnawbek will continue to communicate transparently with Debendaagziwaad. We must prepare our distribution strategies and inform our staff as developments occur. We will always bring the most accurate and unbiased information to our community. Please treat staff and your fellow Debendaagziwaad with kindness and respect.

Our intent is to inform and educate our Debendaagziwaad about the intricate process that has led us to this moment. We do not want these proceedings to be shrouded in secrecy. It is important that you continue to use the Members Portal to access additional information and attend community sessions. Our next session will take place in Toronto on April 12, 2024. Gimaa and Council thank you for your participation in our engagement sessions, for your patience as we prepare to distribute the funds, and for your words of encouragement and support.

Namebine Giizis is Cancer Awareness Month

Only you can know your body and know what is normal. If you notice something is different, like a new growth, lump, more fatigued, or have unexpected weight loss, this needs to be checked out. Book your appointment with your health care provider and discuss these changes. It may be something, or it may be nothing. But if it is something, when it is found early, it is often easier to treat.

Did You Know: About 4 in 10 cancer cases can be prevented through healthy living? **Reduce your risk** of developing cancer now! Make some positive changes in your life like:

- be smoke free
  Smoking is responsible for an estimated 30% of all cancer deaths in Canada. Quit with a friend!
- Be sun safe
  Protect your eyes & skin
- have a healthy body weight
  Check with your doctor about what a healthy body weight is for you and work towards your that goal.
- Eat well
  Cancer loves sugar. Eat more vegetables and leafy greens! Try hot lemon water too.
- Exercise
  Helps control weight, boost your mood and improve sleep!
- Limit alcohol
  Alcohol raises your risk of developing cancers. Smoking & drinking is worse!

There are many benefits to living a healthy lifestyle: Improved mood, energy, memory, prevents disease, saves you money, live longer, diabetes management, reduces stress, controls high blood pressure, strengthens bones & muscles, cognitive benefits, just to name a few.

Are you interested in making some lifestyle changes? There is help. Come to the health Centre and let's discuss! We have a Health & Wellness team ready to discuss your goals with you. Contact us today!

The fourth moon of Creation is Sucker Moon, when sucker goes to the Spirit World in order to receive cleansing techniques for this world. When it returns to this realm, it purifies a path for the Spirits and cleanses all our water beings. During this time we can learn to become healed healers. Another teaching is that the sucker gave up his life for the Ojibwe in the month of February. The previous month, January, is the hardest time of year to get food because of the scarceness of game. In February it is easier to net these fish and it is believed that the sucker is giving his life for the Anishinaabe.

Energy Update - March 26, 2024

Aanii;

We anticipate that the application stage of the Solar Training project will be opening this summer. I will post progress updates to keep you informed.

In the meantime, Independent Electrical System Operator (IESO) is looking to improve the transmission lines throughout Ontario. This upgrade is being done to move electricity throughout Ontario. Ontario is predicting that they won't be able to keep up with the hydro electricity demand, therefore, they are looking to increase production through all forms of hydroelectricity.

Hydro One has started to make changes to the tiered pricing plan by creating an Ultra-Low Overnight Price Plan by reducing the overnight rate to 2.4 cents per kWh. The aim here is to help Electrical Vehicle owners charge their vehicles overnight at lower rates. Keep your eyes open for pricing plan changes in the near future.
