Housing

ANNOUNCEMENT

Debendaagiziwaad!

New Housing Strategy and Implementation of the New Housing Policy

The Housing Department has been working hard in collaboration with Flamand Consulting to pass the new 30 Year Housing Strategy. The Housing Department has also been working closely with the Housing Committee, Flamand Consultants and H.Vear Law Corporation to also approve the updated Housing Policy.

It is our pleasure to announce that Gimaa and Council have motioned to move forward with the Housing Strategy presented at the February 12, 2024, Council Meeting. They have also motioned to move forward with the Housing Policy presented at the May 13, 2024, Council Meeting.

The Housing Department is in the process of implementing the Housing Strategy and the Housing Policy. There will be expected changes in processes and procedures. Your patience and cooperation will be very appreciated at this time.

DOOR PRIZES!

ATIKAMEKSHENG ANISHNAWBEK

NOTICE OF APPEALS: 2024 GENERAL ELECTION

August 16, 2024

Please be advised that on or about July 5 & 8, 2024, two (2) notices of potential appeals were received by Gimaa and Council regarding the 2024 General Election. Upon notice of the potential for the two (2) appeals, Council initiated action under Section 18 of the Election Code which deals with appeals. These actions included contacting the Union of Ontario Indians (UOI) Appeals and Redress Commissionaries to start the appeal investigation process as per Atikameksheng Anishnawbek's Appeals and Redress Policy. However, upon contacting the UOI Council was informed that the Commissionaries were not in service and could not provide the service.

To proceed with the appeals, David Noganosh of Red Wolf Mediation (the "Consultant") was hired by Council to address the matter. The Consultant confirmed that he did receive two (2) separate appeals from three (3) different Band Members (two (2) were co-appellants). Upon review of the two (2) appeals, the Consultant found that there were reasonable grounds under Section 18 of the Election Code to warrant further investigation.

What does this mean for current Gimaa and Council?

Current Gimaa and Council are supporting the process to have the appeals investigated further and will cooperate fully until the matter is resolved. Gimaa and Council roles and responsibilities will remain status quo and will continue to address all matters affecting the Nation while the investigation is carried out by the Consultant.

What is involved in the appeals process?

The Consultant will undertake the following activities:

1) Review the appeals and any supporting documentation that is provided with the appeals (completed)
2) Determine if there are reasonable grounds to investigate the matter (completed)
3) Review all relevant information including but not limited to (in progress):
    a. the Atikameksheng Anishnawbek Election Code
    b. the Statement of Vote Results
    c. the G'Chi Naaknigewin
    d. Band Council Resolutions, Motions, Meeting minutes
    e. Other relevant information
4) Conduct interviews with the three (3) appellants (to be completed)
5) Conduct interviews with the Electoral Officer Vaughn Johnston and Gimaa Craig Nootchtai (to be completed)

ADMINISTRATION OFFICE
25 Reserve Rd – Naughton,
ON P0M 2M0

Telephone: 705 692-3651
E-mail: receptsec@wlfn.com
Website: atikamekshenganishnawbek.ca

@AtikamekshengA

6) Provide a final report to Gimaa and Council, the appellants, and to Atikameksheng Anishnawbek Debendaagziwaad which may contain the following (to be completed):
    a. Any findings of the investigation
    b. Any recommendations or suggestions to correct/amend the election process
    c. Any decision(s) made by the Consultant
7) Publish a summary report of the decision(s) and distribute via community newsletter (to be completed)
8) Publish the final report in the community newsletter and other Atikameksheng Anishnawbek media (to be completed)

***Note: The Consultant has the discretion to undertake less or more activities to resolve the appeals so these activities may be subject to change.**

Next Steps

1) The Consultant will continue with the investigation.
2) Gimaa and Council provide support where necessary.
3) The Consultant will provide a final report and summary report for distribution to Gimaa and Council, the appellants, and Atikameksheng Anishnawbek Debendaagziwaad
4) Gimaa and Council to implement any recommendations or suggestions, and uphold any decisions made by the Consultant

For more information please contact Gimaa Craig Nootchtai at gimaa@wlfn.com, or Rodney Lapointe at political.advisor@wlfn.com.

Dennis Cropper
Chief Administration Officer

What if you've been scammed?

It can be hard to accept that you've fallen victim to a scam or fraud scheme. However, it is important to remember that scams and cyber crimes can happen to anyone, anywhere, at any time. You're the victim so don't blame yourself for what has happened.

IF YOU ARE, OR THINK YOU MAY BE, A VICTIM OF FRAUD OR A SCAM, HERE ARE SOME STEPS YOU CAN TAKE TO PROTECT YOURSELF FROM FURTHER LOSS:

END ALL COMMUNICATION

- Scammers often target victims of fraud a second or even third time with the promise of recovering money; do not engage even if they use threats or coercion.

SECURE YOUR ACCOUNTS AND PERSONAL INFORMATION

- Update passwords and security protection for online banking, social media and computer profiles. Use multi-factor authentication where possible.

REPORT THE FRAUD

- Notify your band council, local police, bank, and social security office. Also, contact the Canadian Anti-Fraud Centre.

EDUCATE AND SHARE

- Share your experience with family, friends, and community members to prevent others from falling victim.

SEEK SUPPORT

- Falling victim to fraud can be a traumatic experience, talk to someone you trust or reach out to community support services for emotional assistance. Consider seeking legal advice if you need help navigating the aftermath of the scam.

1. Protect yourself.
2. Protect your community.
3. Stay informed.
4. Stay vigilant.
5. Stay connected.

DRUG ALERT

August 1, 2024

CARFENTANIL CONFIRMED LOCALLY

Reminder: Carfentanil is a very toxic opioid that is 100 times more potent than fentanyl. People who use carfentanil may be at high risk of drug poisoning.

Lower your risk of overdose:

Ask around.
Know your supply.

Avoid drinking alcohol when using drugs.

Use caution.
Start low and go slow.

Carry a naloxone kit.

Don't use alone.

Alone? Call National Overdose Response Service line at 1.888.688.NORS(6677)

Your supply may be more toxic than you know.

Respond to an overdose:

Call 911.

GIVE NALOXONE.
It will do no harm.
Additional doses may be needed.

Give chest compressions.
Push hard, push fast.

If not breathing, give rescue breaths.

Place the person on their side if breathing on their own.

Stay until help arrives.
Overdose symptoms may come back.

PURPOSE

The circle of care program was designed to provide holistic access to services for all community members in all departments such as health, social services, and education.

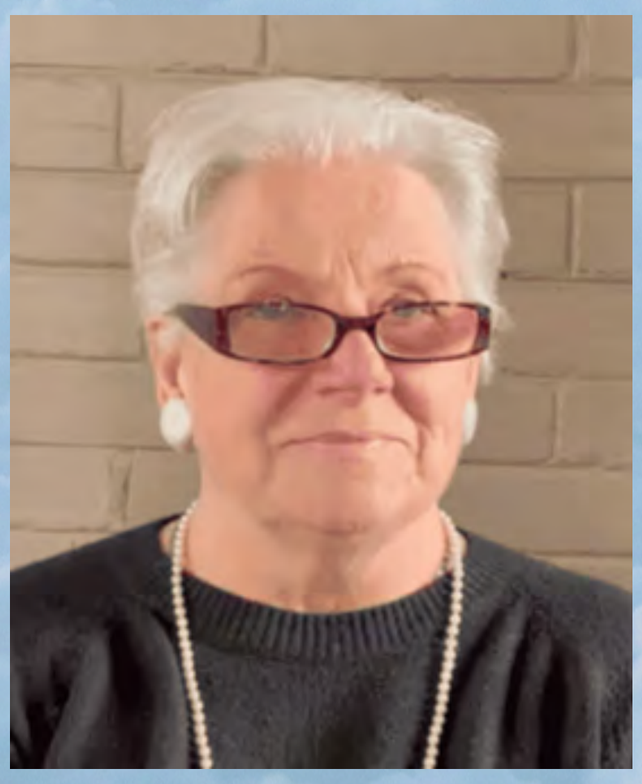

ELDER ABUSE PREVENTION STRATEGY: SAFEGUARDING OUR ELDERS

Preventing elder abuse is a shared responsibility. The abuse of older adults is everyone's business. By being knowledgeable about elder abuse you can help prevent it, recognize the signs, and take steps to intervene safely. It is important to remember that EVERYONE can help and has a role to play to prevent elder abuse.

There are many actions older adults and other community members can take to prevent elder abuse. Join us for a knowledge exchange and an opportunity to hear from an expert.

Health Benefits of Deep Breathing

Deep breathing is a practice that enables more air to flow into your body and can help with various health benefits. Some of the benefits of deep breathing are listed below:

- Lowering blood pressure
- Asthma and COPD
- Managing symptoms of depression
- Anxiety
- Relieving some symptoms of irritable bowel syndrome
- Reducing the number and severity of hot flashes
- Improving focus, sleep, and immunity
- Enhancing circulation and physical energy
- Expanding lung capacity

Northeast Power Line and Northshore Link

Indigenous Archaeological Monitoring Training Opportunity

Hydro One, in collaboration with Waasmoowin Energy Inc., are proud to offer **Indigenous Archaeological Monitor training opportunities** for interested Partner band members.

The training program will be offered by archaeologists Sarah Hazell, an Anishnawbe Kwe from Nipissing First Nation, and Jake Cousineau. The training is designed to offer foundational modules in archaeology enabling participants to apply for monitoring and technician positions for stage 2 archaeological assessments for both the Northeast Power Line and Northshore Link projects.

Training will involve 5 days in classroom on the basics of archaeological techniques, and one day for field training in the methodology of archaeological survey. Training will be offered at Mississauga First Nation, in Blind River from September 16-21.

What will you learn:

- Introduction to archaeology
- Identification of artifacts and bones
- Ontario archaeological legislation and Ministry of Citizenship and Multiculturism's Standards and Guidelines for Consultant Archaeologists
- Indigenous occupation of Ontario and more

Illustrations by Storm Angeconeb

Qualifications:

No experience is required, however interest in cultural heritage, the outdoors and archaeology are essential.

Other requirements include:

- Maintain good communication and professional courtesy with clients, staff, management, contractor, regulators, communities and landowners
- Willingness and ability to perform physically demanding tasks (e.g. hand shoveling, trowelling, carrying buckets of dirt, screening soil)
- Filling out required paperwork such as site forms and recording artifact recoveries
- Must have tolerance for working in outdoor environments, prolonged walking, standing on various terrain and working in a wide range of weather conditions
- Excellent work ethic and team-player attitude as well as the ability to work independently.

Northshore Link: https://www.hydroone.com/NSL

Northeast Power Line: https://www.hydroone.com/NortheastPowerLine

INTERESTED IN PARTICIPATING?

Scan the QR code to complete a survey by **August 26th.**

ATIKAMEKSHENG ANISHNAWBEK

Klohn Crippen Berger

A Sudbury engineering company has several job shadowing opportunities as well as part-time and full-time job openings for locals in its office and in the field at local mine tailings facilities.

The jobs, with Klohn Crippen Berger, or KCB, range from office administration support to field technicians and health and safety support.

KCB's Sudbury operations provide engineering and support services for the management of mine waste, including tailings facilities and water management infrastructure.

The positions are:

- Office administrative support (job shadowing, part-time employment, and full-time employment)
  - Support existing administrative staff in a range of activities, from ordering office supplies and supporting the office team with travel arrangements, through to formatting documents and supporting compliance with KCB's internal quality management system.
- Field technician – water sampling (job shadowing and part-time employment)
  - KCB has an ongoing project collecting water samples around tailings dams. The collected water samples are sent for geochemical testing and the results analyzed by KCB geochemists to determine the geochemical processes within the tailings dam embankment. This information is used by the engineering design team to improve the longevity of new works to the dams and increase the safety of these facilities.
- Field technician – drilling observation (job shadowing and part-time employment)
  - For the design of any new structures, and to better understand the conditions of existing structures and its foundations, KCB typically requires geotechnical drilling. During drilling campaigns, our engineers observe the process, collect samples, and log the samples and the drill hole.
- Field technician – construction supervision (job shadowing and part-time employment)
  - While the contractor is responsible for the quality of the construction work, KCB observes the work and provides guidance to the contractor as they execute their work, undertake spot checks of their field tests, and collect samples for testing at a geotechnical lab.
- Health and safety support – office and/or field based (job shadowing and part-time employment)
  - Health and safety is an important element for all field work. This role includes support for the planning/logistics of the field teams, planning training for the field team, keeping records of health and safety training, conducting site visits to review field conditions, and supporting the team with daily check-ins.

For members of the community not sure if they have an interest in any of these positions but would like to find out more about them, KCB is offering a week of job-shadowing. This is a great way to get exposure to a range of professionals, including civil engineers, geotechnical engineers, water resource engineers, and geochemists before deciding if this is a good fit for you.

KCB is a multi-disciplinary engineering company with offices across Canada, Australia, the UK, and South America.

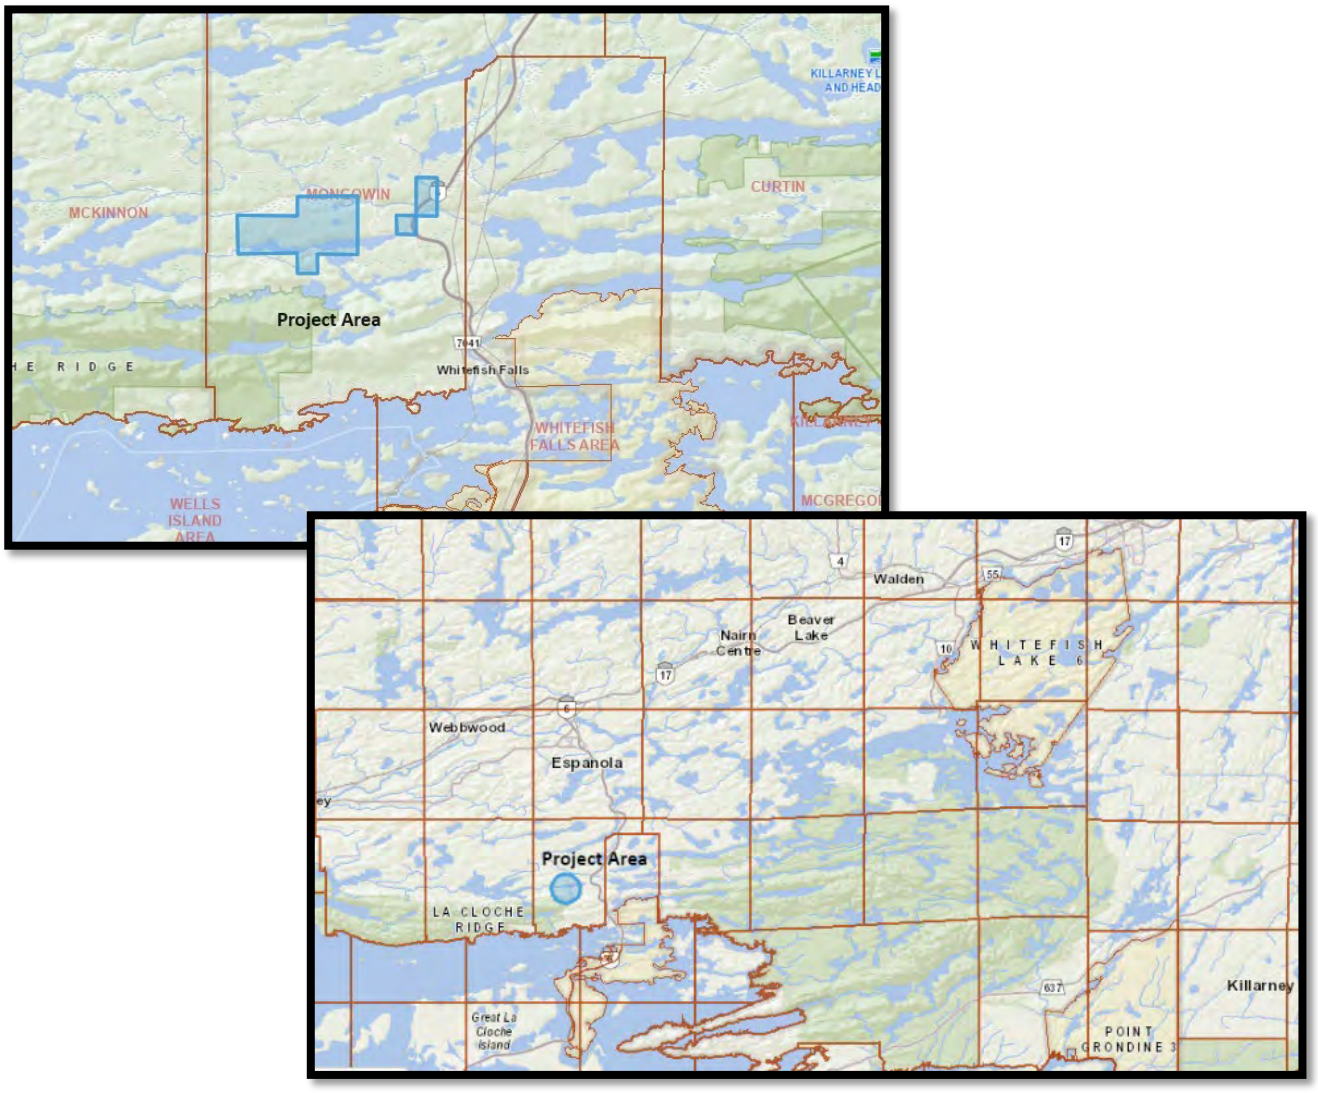

If you are interested in any of these opportunities, please reach out to KCB's Human Resources contact (Brad McMorris at BMcMorris@klohn.com) so that they can give you more information.

Early Mineral Exploration Permit Application Notice:

McMillan Mine Exploration Drilling Project

Atikameksheng Anishnawbek has received an early mineral exploration permit notification from the Ontario Ministry of Mines (MINES) for proposed activities in Mongowin Township. McFarlane Lake Mining Ltd has submitted a permit application to MINES to conduct exploration activities that will include geophysical surveys, mechanized drilling, line cutting, and trail construction.

The proposed project location is shown in the images below:

Any feedback regarding the proposed work is valuable to our consultation efforts.

Please send your questions, comments, or concerns regarding this early mineral exploration permit by email to mineral.development@wlfn.com before September 3, 2024.
