ATIKAMEKSHENG ANISHNAWBEK

September 13, 2024

Dear Debendaagziwaad,

Re: Community Infrastructure Safety

Atikameksheng Anishnawbek has a responsibility for ongoing infrastructure inspections to ensure the safety of members and protect against risk of liability. As part of this safety evaluation, two immediate decisions had to be made regarding our community play structure and fitness centre.

Community Play Structure

The Director of Planning and Infrastructure has determined through a regular inspection that the community play structure located near the Community Complex is deemed unsafe at this time. Administration is in the process of determining if the current structure can be repaired to meet playground safety standards or if a new structure is required. The department of Planning and Infrastructure will update the community when more information is available.

We acknowledge that the play structure is vital in the community, and we will work diligently for a timely solution.

Fitness Centre

The Department of Health and Community Wellness conducted a preliminary evaluation of the need and use of the fitness centre at the Community Complex. Results of this evaluation concluded that there is a need for this type of facility and service in the community.

However, the Department of Planning and Infrastructure conducted a health and safety inspection as it relates to fitness centre standards. The results concluded that the space does not meet adequate safety requirements and unfortunately cannot be retrofitted.

The Department of Health and Community Wellness will be following up with the community to provide alternative programming and services to access gym facilities outside of the community and additional programming that focuses on physical activity.

Administration is exploring opportunities for a larger recreational facility that would adequately suit the needs of the community. Community engagement will take place to ensure member feedback is incorporated in the process.

Other resources that you may be able to access is through our current Atikameksheng Trust by requesting dollars under their recreation and leisure application process.

Chi-Miigwetch,

Dennis Cropper

Early Mineral Exploration Permit Application Notice:

Belfast-TeckMag Project

Atikameksheng Anishnawbek has received an early mineral exploration permit notification from the Ontario Ministry of Mines (MINES) for proposed activities in Afton and Scholes Townships, around 34km Northeast of Wahnapitae Lake. Conquest Resources Ltd has submitted a permit application to MINES to conduct exploration activities that will include geophysical surveys, mechanized drilling and creating trails for the purposes of early exploration. Most of the proposed project area in this permit application overlaps with the project area in existing permit PR-24-000144 (recently issued to Conquest Resources Ltd) to add new drilling locations to support the existing permit activities.

The proposed project location is shown in the images below:

Any feedback regarding the proposed work is valuable to our consultation efforts.

Please send your questions, comments, or concerns regarding this early mineral exploration permit by email to mineral.development@wlfn.com before September 26, 2024.

ROAD & OFF-ROAD SAFETY MEASURES

Keep your distance.

Observe a safe trailing distance of two seconds between your motorized vechicle and the vechicle in front of you.

Buckle up.

Wear your seat belt and/or helmets at all times. It helps you stay protected.

Observe the speed limit.

This makes it easy for you to stop your vehicle when needed and gives you enough time to react to any changes on the road.

Follow traffic signals/signs

Prepare to stop at yellow lights and do a full stop at red lights.

Never drink/use drugs & drive.

Drinking alcohol or using drugs will only impair your driving. Don't operate a vehicle when you're inebriated.
