Baashkaakodin Giizis – November 2024

Freezing Moon is the time that we come to know the power of spirit. During this moon, we share our sacred teachings and songs. This is the time for rest and reconnecting with family. We begin the winter moons by looking inward and giving appreciation for everything we have received from the previous seasons.

This moon is also known as the Beaver Moon, Frost Moon, Whitefish Moon, and well as many others.

Mobilization Notice:

McMillan Mine Exploration Drilling Project

Atikameksheng Anishnawbek has received a notice from McFarlane Lake Mining Ltd on their upcoming plans to mobilize a drill to the McMillan Mine exploration project site in Mongowin Township covered under early mineral exploration permit PR-24-000138. They are planning to move a small drill onto the site tentatively on November 4th, 2024 to clean the historical drill holes which will enable them to conduct geophysical tests. They are expecting the geophysical field work to take approximately 10-12 days, and they will be demobilizing this drill. After completing this activity, they plan to mobilize a diamond drill to the site tentatively mid-November which will be used to start the initial 3,000m diamond drill program.

The project boundary and location are shown in the images below:
